University of Illinois – Fire Service Institute

Fire Training – Acknowledgement of Conditions

The Board of Trustees of the University of Illinois, through its Illinois Fire Service Institute, attempts to conduct its training programs in the safest and most efficient manner possible. However, it is not possible to eliminate all of the potential hazards to a student's safety. Before any student participates in an Institute training program involving the teaching of fire fighting skills, he/she should be familiar with the level of physical stress and other hazards involved. Please read the following explanations of the physical and mental requirements of this course and sign the form to acknowledge that you have read and understood the information. Students who cannot comply with these requirements will not be allowed to participate in parts of the training involving physical exertion, or the use of protective equipment, so as to provide for their personal well being and safety of other students and instructors. They may attend lectures and observe evolutions from a safe distance.

I acknowledge:

1. Fire fighting training can be a physically and mentally stressful activity, requiring physical exertion; exposure to high temperature and humidity levels; toxic atmospheres; working at heights and in confined spaces; the possibility of elevated body temperatures, increased pulse, respiration, and blood pressures; and the ability to react quickly to emergency situations.
2. Persons with known heart or lung disease, hypertension, who are pregnant (Note: spontaneous abortion will occur with pregnant females when core temperature elevates), or have other medical or mental conditions which may affect their health and safety under these conditions, are advised to check with their personal, or fire department, physician before participating in the activity. Evidence of the ability to meet the Illinois Department of Labor Respirator Wearers physical evaluation may be required.
3. Protective clothing and self-contained breathing apparatus meeting the appropriate NFPA standards, at the time of manufacture, must be worn during most practical exercises and live fire training as directed by the instructor in charge. Protective equipment must be in serviceable condition.
4. Individuals with facial hair, jewelry, or other impediment to the proper seal of the face-piece on self-contained breathing apparatus will not be allowed to participate in evolutions where the atmosphere is toxic or may become so.
5. The use of alcohol, and other drugs, which affect mental or physical reactions, immediately preceding, or during training, is prohibited.
6. I am 18 years of age, or older, and an active member of a public fire department or private fire brigade.
7. For purposes of promoting the Illinois Fire Service Institute (IFSI), I agree to allow IFSI unlimited use of my image, with no compensation.
8. By the signature of the Fire Chief/Training Officer, the department acknowledges extension of its Worker's Compensation coverage to the student. In the event of injury during training, the student is responsible for notifying his or her department to initiate the process. IFSI does not provide insurance coverage for students. Any and all injuries, no matter how minor, will be reported to the IFSI staff who will have the final say in selecting the treatment disposition for the student. This may range from on-site treatment to ambulance transportation to a local emergency department or occupational medicine agency. If a student or department does not accept these terms, or refuses to comply with IFSI's treatment decision and disposition, the student will be dropped from the remainder of the class (or program) and will not be eligible for any refund.

Fire Chief/Training Officer Signature: _____ Printed Name _____

Participant's Signature: _____ Printed Name _____

Date: _____

Note: Use of Student Social Security numbers: Furnishing a Social Security number (SSN) is voluntary and not required for enrollment. However, the University of Illinois is required by federal law to report to the Internal Revenue Service (IRS) the name, address and SSN for persons from whom class fees and related expenses are received. Federal law also requires the University to obtain and report to the IRS the SSN for any person to whom compensation is paid. Failure to provide such information may delay or even prevent your enrollment. The University will not disclose a SSN for any purpose not required by law without the consent of the student.¹
