Lake County Fire Chiefs Association
Northern Illinois Fire Inspectors Association

To: Applicant for Lake County Building Permit

From: Lake County Fire Chiefs Association
Northern Illinois Fire Inspectors Association

Subject: Fire Protection District Fire Prevention Codes

The Lake County Fire Chiefs Association and the Northern Illinois Fire Inspectors Association want to take this opportunity to remind all building permit applicants to check with their local fire protection district for additional fire prevention code requirements. There may be other fire prevention code requirements you need to be aware of as you start your building project. For example, a number of fire protection districts have joined local Municipalities in adopting fire prevention codes requiring residential sprinkler systems for new single family homes.

Your local fire protection district has the legal authority to adopt and enforce its own ordinance. The Illinois Supreme Court has authorized fire protection districts to enforce their fire prevention codes in the unincorporated areas of Lake County even though the code may not be required by the Lake County Building Code.

For assistance in determining the fire protection district for your building project, visit the Lake County Web Site <http://www.co.lake.il.us> → GIS Maps → Interactive GIS Map Application → Property Tax → Report Information.

Lake County fire department contact information is available by visiting the Lake County Fire Chiefs Association Web Site <http://www.lakecountyfirechiefs.org> → Members.

Please join your local fire protection district in their effort to provide life safety protection for you and your family as well as your property.

Thank you for your cooperation.
