## September 2019 MABAS SURVEY RESULTS

To ensure that CenCom is delivering the highest quality communications, a survey is sent out following each incident to the agency that requested the MABAS. There were 2 returned MABAS surveys in September 2019. Listed below in red are the total scores for each question on the survey. Also included in blue at the end of the survey are additional comments that were provided. CenCom is committed to achieving excellent or good scores for all questions. When a survey comes back with a score less than excellent or good, CenCom is reaching out to that department to clarify and address any technical issues that might have caused a mediocre score.
